CAREER OBJECTIVE

Recent Computer Science graduate with strong analytical, research, and communication skills. Passionate about understanding emerging technologies, industry trends, and business ecosystems. A quick learner with a proactive mindset and attention to detail, eager to contribute to technology research, business analysis, process operations, and data-driven decision-making while continuously developing new skills and knowledge.

EDUCATION

Bachelor of Engineering in Computer Science Engineering 2021-2025

Adhiyamaan College of Engineering | CGPA: 8.32

Higher Secondary Education 2020-2021

Swamy Vivekananda Matric Hr Sec School | Percentage: 84%

PROJECTS

AI-Integrated Food Delivery Web App

Developed a full-stack AI-powered food delivery platform with user authentication, restaurant listings, dynamic menus, cart management, and secure order placement using MVC architecture, DAO design pattern, and SQL-based database operations. Implemented intelligent features like AI NutriTracer for meal image-based nutritional analysis and a Smart Assistant Chatbot using Google Gemini API and n8n workflow automation.

Secure Login System

Implemented a secure authentication system where passwords are encrypted using SHA-256 with dynamic salting and iterative hashing before transmission to the server. Designed a database-driven login verification process where the Spring Boot controller calls an SQL stored procedure to re-hash passwords, validate credentials, and enforce account status checks.

TECHNICAL SKILLS

- | | |
|-------------------|------------------------------|
| • Java | • Spring Boot |
| • HTML | • MySQL |
| • CSS | • PostgreSQL |
| • Python (Basics) | • MS Excel, Word, PowerPoint |

ADDITIONAL INFORMATION

Certifications:

- Full Stack Web Development in Java – Tap Academy
- Java (Basic) – HackerRank
- SQL (Basic) – HackerRank

Languages:

- English
- Tamil
- Telugu
